

Datasheet CL-RGB-O

Technical Datas

- 2 SMD-LEDs with lenses
- FR4 PCB
- modules are soldered to chain of 25 modules
- Measurements : 49 x 19 x 10,5 mm

Electrical Parameters

- Voltage 12V
- Power consumption 0,72 Watt /Module
- Angle 160°
- IP65 protection
- CE to EN 55015
- Luminous flux red = 6 lm/Module
Green = 10lm/ blue = 3lm

Saftyand Installation Note

- The components on the PCB must not be subject to mechanical loads
- The circuit board paths must not be damaged or broken
- Only CHIPPOWER converters may be used to power the modules
- Avoid electrical discharge or charge
- max. modules per line 25pcs.
